Rodney,

It has been a pleasure working with you thus far in my business venture. You have helped to make the process very seamless and stress free. Your proposals have been informative and a major help in the construction of my business plan and startup costs. Your service has been above what I expected. From those that I have sought help from in your industry and even organization, your service has been above what they have shown.

Thank you for your time and genuine concern for my business needs. I can honestly say that I feel comfortable in referring you business if and when the opportunity presents itself. If ever you need a referral for a prospective client I would be happy to do so for you.

Earnestly,
