

November 7, 2014

I have used Taylor machines since the early 90s. Previously I used something else. (The)Taylor machine is very dependable and they have an outstanding service department. If I call for service, they come that day or the next. They also have a phone tech guy that is great also. In the beginning, they showed me how to clean the machine and set it up--hands on.

I would recommend Taylor over the other brands.
