

# L850

## Single Platen Double-Sided Grill

### Features

One-touch menu selection automatically chooses the proper TIME, TEMPERATURE, and GAP settings.

### True Parallel Auto Leveling

Automated procedure sets the lower plate parallel to the upper platen. Increases food quality through consistently accurate gap settings.

### Touchscreen Controls

Touchscreen control technology enhances a more visual and easier to use interface for operator interaction.

### Upper Platen

Upper platen may be lowered automatically to the preset gap setting with the touch of one button. Slim platen design makes cleaning easier. As a safety feature, platen will automatically open at loss of power, or if an obstruction is detected.

### Precise Automatic Gapping

With the unique three-point reference system, the lower plate automatically achieves accurate and consistent gaps every time. Precise, repeatable gapping results in consistent, better quality finished product.

### Cooking Zones

One controlled cooking position. Three independent heating elements in the lower cooking surface, and two in the upper platen, ensures even temperatures and quick recovery. A larger cooking gap allows product up to 2.0 in. thick to be cooked in two-sided mode enabling greater menu flexibility.

### Independent Platen Cooking Zones

Separate lower cook zone allows the user to turn off during the slow periods to save energy.

### Wrap-Around Release Material

Simple-to-install upper platen release material protects the entire upper platen cooking surface and makes cleaning easy. Improved installation and removal keep hands away from hot surfaces.

### Outrigger Kit

Outrigger kit-X87115 without casters are to be applied during store installation.

### Worldwide Sales, Service, and Parts Distribution

Taylor has over 160 distributors worldwide, whose primary business is serving Taylor customers. Taylor has over 500 factory trained technicians, certified annually.

## Specifications

This unit may be manufactured with other electrical characteristics and may have additional regulatory agency approvals. Consult the local Taylor distributor for other electrical characteristics and agency approvals based on specific electrical and country requirements.

**(For exact electrical information, approval marks, and refrigerant, always refer to the data label of the unit.)**

**Continuing research results in steady improvements. Therefore, these specifications are subject to change without notice.**

### Bidding Specs

**Electrical:** Volt \_\_\_\_\_ Hz \_\_\_\_\_ ph \_\_\_\_\_  
**Neutral:** ☐ Yes ☐ No **Cooling:** ☐ Air ☐ Water ☐ NA

**Options:** \_\_\_\_\_

## Electrical

One dedicated electrical circuit required. See the electrical chart for the proper electrical requirements. They are manufactured to be permanently connected. Always follow your local electrical codes. Consult your local Taylor distributor for cord and receptacle specifications as local codes allow.

## Heaters

One 3.6 kW cast-aluminum heater in the upper platen (each contain three individual 1.2 kW zones). One 4.8 kW cast-aluminum heater in the lower cooking surface (each contains three individual 1.6 kW zones).

## Included Accessories

- Two grease cans

All options may not be available in combination with others or with all electrical or cooling configurations. Please consult your local Taylor distributor.
